Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 07 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Windy today, especially over Scotland.

Today:
Windy, especially across northern and eastern Scotland where gales or severe gales and high gusts expected. Many areas will be dry with sunny spells, but some showers are likely in the north and west and the Midlands. Colder than yesterday.

Tonight:
Daytime showers fading this evening leaving many areas dry and chilly with clear spells overnight. Turning cloudier with rain at times in the west later. Becoming less windy.

Monday:
Bright at first in the south and east, then turning cloudier later but remaining mainly dry. Cloudier and windier in the north and west with rain at times, especially later.

Outlook for Tuesday to Thursday:
Cloud and rain moving southeast through Tuesday with blustery showers following in the north. Cloud and outbreaks of rain in the south likely returning north midweek. Mild in the south.
